Fabie Street • 1007, Manila City • gzyphryz@gmail.com • +639973164780

Education

TECHNOLOGICAL INSTITUTE OF THE PHILIPPINES

Bachelor of Science in Computer Science

Relevant Coursework:

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Software Engineering
- Web Development

Quiapo, Manila

August 2022 - June 2026

Experience

Bureau of the Treasury Philippines

System Administration Intern

Intramuros, Manila

February 2026 - April 2026

- Supported IT operations across network, security, and user support systems
- Handled inbound technical calls and managed service tickets, ensuring timely issue resolution
- Mapped network infrastructure and applied IP addressing and subnetting concepts
- Installed and troubleshoot printer and telephone connections for end-users
- Assembled and terminated Ethernet cables (RJ45 crimping and punch-down) for network setup
- Organized and audited documents, maintaining accurate logs for incoming and outgoing records
- Developed a SharePoint-based tracking system for NROSS to improve workflow visibility
- Collaborated with IT staff and users, strengthening communication and team coordination

Design Project Completed/Research

A CNN-Based Approach for Filipino Food Recognition and Approximate Calorie Estimation Using a Localized Dataset

(July 2025 - June 2026)

- Built a deep learning pipeline for Filipino food recognition using CNN transfer learning and a custom annotated dataset.
- Implemented YOLOv8-based food segmentation and feature extraction for reference-based portion estimation.
- Estimated calorie content by combining food classification, portion estimation, and nutritional database information.

Skills & Interests

Technical Skills:

- **Programming:** Python, Java, C/C++, Object-Oriented Programming, Data Structures & Algorithms
- **Databases & Tools:** SQL, Git, SharePoint
- **Networking & IT Support:** IP Addressing, Subnetting, Network Mapping, Hardware Setup, RJ45 Crimping & Punch-Down, Troubleshooting, Ticket Management
- **AI & Computer Vision:** Machine Learning, CNN, YOLOv8, Computer Vision
- **Other:** Network/System Administration, IT Security & Compliance, Technical Documentation

Core Skills:

Problem-Solving & Analytical Thinking; Teamwork & Cross-Functional Communication; Adaptability; Attention to Detail; Documentation & Audit Organization

Interests:

AI & Computer Vision; Network & System Administration; Software, Web & Application Development; Game Development
